

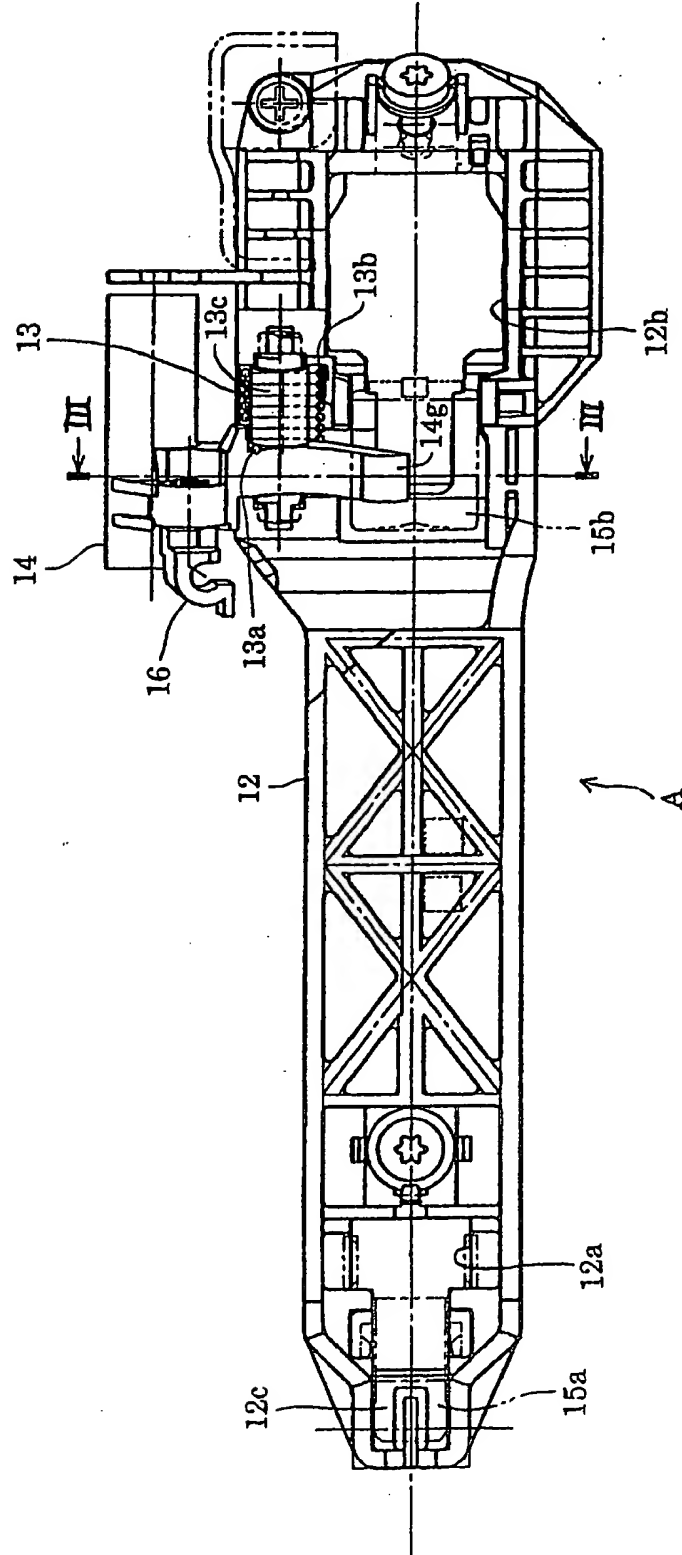

Fig. 1

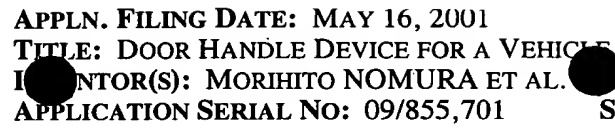

Fig. 1 is a perspective view of a portable electronic device. The device has a main body 12 with a curved, ergonomic shape. A display screen 13 is mounted on the front of the body. The device is shown in a partially open state, revealing internal components. A top cover 11 is hinged to the front of the body. A bottom cover 15 is hinged to the back of the body. A side cover 17 is hinged to the side of the body. A hinge mechanism 14 is shown in a partially open position, revealing internal components 14g and 15b. A locking mechanism 18 is also visible.
